

Joint venture "CMC-Knauf» SA Address: Stefan cel Mare, 178, mime. ponds, Republic of Moldova, MD-3100 tel / fax: (+373 231) 2-80-94 e-mail. office@knauf.md marketing@knauf.md <http://www.knauf.md> <http://www.knauf.ru> <http://www.knauf.de> Casimir Buzichevici Born on May 23rd, 1956, in Cuconestii Noi village, Edinet district Economical engineer, had graduated from Lvov Commercial and Economic Institute (1978). Doctor of economic sciences. From 1996 - chairman of the board of the «CMC-Knauf» JSC. Rewarded with «Gloria Muncii» order. Honored with title «Businessman of the Year» (1999-2003). In 1996, the largest in Europe Construction Company - «Knauf» (Germany) together with integrated plant of construction materials from Balti City had established the Joint-Stock Company «CMC-Knauf».

In 2003, it was carried out integration of the JSC «CMC-Knauf» with the JSC «Criva-Knauf». All these years, the enterprise operates and develops successfully, constantly increasing its capacities and mastering newest technologies. Among the released products, the most important are: gypsum plaster; molding gypsum; dry gypsum mixtures for internal finishing works; underpaint fillers; stucco; glues; dry cement mixtures for indoor and outdoor works;

mortars; gypsum plates for partitions with recess-ridge design; gypsum stone and crushed rock. «CMC-Knauf» is the leading exporter gypsum products not only in CIS-states, but also in some other Eastern Europe countries. 85% of sold products represent export deliveries to. Russia, Ukraine, Romania, Bulgaria, Kazakhstan, Byelorussia, Azerbaijan, etc. New materials produced by the enterprise ensure high quality, practicalness and workability of finishing works, making it possible to achieve high productivity of labor and provide a European level of constructions' quality. Besides, «CMC-Knauf» delivers on the local market goods of other «Knauf» enterprises, which function on the territory of CIS-states, as well as Germany, Australia and Hungary, thus ensuring the complete range of construction materials for indoor and outdoor finishing works (so called completed systems). The task of instructing builders, engineers, workers, managers and personnel - engaged in trade in construction materials, which know the ways to use such materials; their characteristics and properties, advantages in comparison with other materials - is solved at the same with the production. To this end, the educational and demonstrative center is created at the enterprise, where all products are presented in samples, class-rooms are completed with video and computer equipment, projector. Permanent highly qualified instructor carries out studies and consultations. Proper investing policy of «CMC-Knauf» ensures favorable labor conditions, allows introduction of advanced norms of management and marketing. Large investments are directed constantly toward development of the enterprise. For several years of work, management of «CMC-Knauf» has succeeded in creation of an image of a prosperous company. Here are provided qualitative services and are created modern and refreshing interiors of dwelling premises. For its special contribution in the development of construction materials industry, the enterprise was rewarded more than once (in 2001, 2002 and 2003) with the State Premium of Moldova.
