

Joint Stock Company Cheese Factory Cahul address : Peace Street. 3, or. Cahul Republic of Moldova, MD-3901 tel.: (@ 373,299) 2-38-91 Alexander Cupcenco Born on November 7th, 1941 in Cunicea village, Floresti district Processing engineer, had graduated from Odessa Technological Institute (1970). From 1974 - director of the Cahul milk factory. Rewarded with «Gloria Muncii» order. Everyone knows about nutritious value and benefit of milk products for the human health. Almost every day, there is milk, cottage cheese, sour cream, butter, cheese, cream, etc. on our table. Producers try to meet the most exacting demands of consumers.

Products of the «Cahul milk factory» had won long ago the confidence of population of the southern regions of Moldova. Joint-Stock Company «Cahul milk factory» was created in 1994 as a successor of the Cahul milk factory. It specializes mainly in production of different types of cheeses and products of milk processing (cottage cheese and products from it, butter, sour milk products, etc.), all of them being ecologically pure products with excellent food and nutritious properties. Annually, the enterprise processes 3.200 tons of milk, whereas total volume of products achieves 9 mln. lei. As a main raw material for production, milk is purchased directly from producers (peasant holdings and private persons). It is processed in accordance with modern requirements. There are 70 persons with big experience work at the factory. In order to extend sales market, «Cahul milk factory» renews technological lines. Here, the new line for packing end products into polyethylene film and polystyrene cups, as well as for vacuum packing of small pre-packed products into a film is installed. It is intended to extend t<sup>h</sup> range of curd products and bringÂhem into conformity with international quMy standards; to cooperate more active<sup>ly</sup> with partners both from the Republic of Moldova and neighboring countries.
