Since 2001 - the director of the enterprise «Молдавский Стандарт». The enterprise with Foreign Capital «Молдавский Стандарт», is a modern factory of the Republic of Moldova specializing in production of wines, divins, brandy and traditional spirits.

It commenced its activity in 1997, when new workshops for burning distillation oak staves, maturing divin spirits, blending and bottling under technologies of the leading European specialists were opened. Thus, wine materials are distilled into high quality divin spirits using unique Swiss equipment of the company «Arnold Holstein». Stability and quality of the distillate and divins is provided in the cool treatment workshop equipped by two flow lines manufactured by the Italian companies «Deilla Toffola» and «Vella». End products are analyzed in the modern laboratory operating at the territory of the plant. End products are poured in bottles of various shapes and volume. The workshop is equipped with powerful, extra-modern Italian bottling line, which permits to fill 25 thousand bottles per day. Prior bottling, divin spirits are matured in specialized premises with oak barrels purchased in France, which ensures the quality of their maturing. The enterprise produces widely known brands of divin, such as «Молдавский Стандарт», «Cantemir», «Mereni», «Premier VMC», «Versailles», «Black Sun». The high quality of products was marked by multiple awards of the prestigious national and international exhibitions and tasting sessions. At the exhibitions «World Food Ukraine-2004», «Peterfood-2004» and «Prodexpo-2005», the divin «Молдавский Стандарт» was rewarded with gold medals in various nominations. But, the best award for the enterprise is the quality confirmed by consumers, the main judges, which is confirmed by the export to 12 countries of the world. Today, not stopping at what has been accomplished, «Молдавский Стандар» elaborating penacious plans to create neŭ brands of elite divin and to extend his activity.
