From 1992 - director of «Stroitehnolo-gia» LLC. It is known that the profession of buil-der is one of the most ancient and necessary ones. It is also known that good and beautiful houses always were delighting people's sights. Maybe these are the reasons why «Stroitehnologia» LLC, created in 1992 (with its office located in Taraclia Town), has oriented its activity toward the construction of private houses and industrial projects, as well as performance of repair and construction works in the southern regions of the republic.-

It has become the main sphere of activity for 80 employees, who constitute the basic staff of the enterprise. «Stroitehnologia» also produces construction and finishing materials using for this purposes its own materials, which are in conformity with European standards and meet the strictest requirements of construction norms. It produces construction stones, «Fortiant» bricks,

dry mixtures, concrete plates and plasters - materials that are used in works of all types. The enterprise has its own metal processing workshop, because thk activity is per-ceived as relating directly with construction works. Besides construction of houses for individual customers, the enterprise had built the District's Stele, buildings of social and cultural destination. Currently, enterprise's specialists are building a sewing factory in Congaz Village. «Stroitehnologia» LLC carried out repair and finishing of many public organization, including mayoralty's building, center of medical education, office of cadastral service in Taraclia, performed repair works and reconstruction of the sewing workshop in Copceac Village. The activity and the operation style of the enterprise are highly appreciated by clients and specialists. In 2003, «Stroitehnologia» LLC was honored with the title of «The Best Tax Payer of the Taraclia District».
