Being confident in its capabilities and in the benevolent attitude of clients, the Company began the construction of administrative building, which will allow it to organize its work more effectively and to offer new working places. In 2004, «Gesusbau» had opened a new commercial center, inaugurated on the occasion of the five years of activity; a furniture mini-factory. In future, it plans to construct an exemplary building in accordance with requirements of modern standards and norms, using the most advanced technologies. In order to apply successfully the European standards, to use novelties in its activity, the Company has established and maintains relations of cooperation and partnership with similar enterprises from Germany, Romania, Russia and Ukraine. Developing its activity, JSC «Gesusbau» will be striving, of course, to new achievements. The Company is much obliged to people supporting it and is grateful to regional authorities.
